

Extreme Weather Research Project

Image Search

You will need to find the following images for your movie:

2	relevant images for your description section (photographs of tornadoes, hurricanes, thunderstorms/hail, drought, blizzards, floods/monsoons)
2	relevant images for your where and when section (maps)
2	relevant images for your danger and damage section (photos of damage caused by your extreme weather event)
1	relevant image for your historical section (a photograph of an historic extreme weather event)
1	relevant image for your safety section (an image that shows a safety precaution that people should take for your extreme weather event)
